SUMMARY

Motivated Computer Science and Data Science student with strong skills in Python, Java, and full-stack web development. Experienced in building scalable applications using REST APIs, database management, and machine learning. Proficient in Data Structures & Algorithms with a focus on developing efficient and practical software solutions.

EDUCATION

B V Raju Institute of Technology, Narsapur	2023 – 2027
<i>B.Tech in Computer Science Engineering (Data Science)</i>	GPA – 9.14
Narayana Junior College, Kukatpally	2021 – 2023
<i>Intermediate</i>	Percentage - 98.5
Akshara The Techno School	2021
<i>SSC</i>	GPA - 10.0

TECHNICAL SKILLS

Languages: Java , Python

Web Development : HTML, CSS, JavaScript, Node.js, Express.js, REST APIs

Data Science & ML: Pandas, NumPy, Scikit-learn, Matplotlib, TF-IDF, Logistic Regression

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core Concepts: Data Structures & Algorithms, OOPS Concepts

PROJECTS

Inventory and Business Management System for Agricultural Supplies

- Developed a full-stack web application using Node.js, Express.js, MySQL, HTML, CSS, and JavaScript
- Implemented inventory tracking system supporting multiple products with real-time low-stock alerts
- Designed credit sales tracking and customer management system to improve business operations

Smart Medical Appointment Platform

- Developed an NLP-based symptom classifier using TF-IDF and Logistic Regression for department prediction
- Built a full-stack platform using FastAPI and Next.js with JWT authentication and role-based access
- Implemented geolocation-based doctor discovery and admin controls
- Designed an automated retraining pipeline using APScheduler to improve model accuracy over time

CERTIFICATIONS

- Java Programming – Oracle
- Python Essentials I - CISCO
- Data Structures and Algorithms - Smart Interviews
